

TASKI® Jontec Tensol J-flex

F3d

Floor cleaner/maintainer in J-flex®

Description

Floor cleaner/maintainer, without film build up. Ideal for cleaning and maintenance of protected and unprotected water resistant hard floors. Creates a slip-resistant and dirt repellent floor.

Key properties

- Contains a glide additive
- Fresh fragrance
- Non build up cleaner/maintainer
- Fast acting, low foaming
- Versatile application
- Well-balanced formulation based on water-soluble maintenance ingredients
- Unique, patented Odour Neutralizing Technology (O.N.T.)

Benefits

- Cleans and maintains without film build-up, creating a slip resistant and dirt repellent surface
- Ideal for scrubber driers: low foaming for fast solution pick-up and optimal recovery tank use
- Glide additive facilitates wet mopping
- Also suitable for damp mopping (dust removal) and for spray cleaning with single disc machines
- The O.N.T. technology destroys malodour molecules and therefore enhances the fresh fragrance.
- Ideal for the new generation of floorings (PU Floors/pre-treated floors) as initial treatment

Use instructions

Bucket cleaning: Apply the solution with a mop. Allow to act. If required scrub. Remove the soiled solution.

Machine cleaning: Fill the machine tank with cleaning solution. Apply the solution to the floor, scrub with pads or brushes and remove the soiled solution.

Single disc machine - spray cleaning: Fill solution into the bottle of the spray device and equip the machine with a red pad. Spray clean the floor. Buff for extra shine (TASKI® IntelliPad is the perfect pad).

Dosage*

The J-Flex dosing system does give controlled dosing for both for high and low concentration. High concentration for wet/damp mopping or for heavy soiling. Low concentration for machine application and/or light soiling.

Low soiling: Rotate selector valve to bucket low dosage (Icon of bucket with one drop inside) and fill bucket, scrubber drier or single disc machine with solution. (Concentration: 0.2%).

Heavy soiling: Rotate selector valve to bucket high dosage (Icon of bucket with three drops inside) and fill bucket, scrubber drier or single disc machine with solution. (Concentration: 0.4%).

Proper dosage and temperature save costs and minimize environmental impacts.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

TASKI® Jontec Tensol J-flex

F3d

Technical data

Appearance:	Clear, colourless liquid
Odour:	Herbal
pH value (neat):	~ 9
pH value (in use):	~ 9
Relative density (g/cm ³ ; 20°C):	≈ 0.97

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists.

Product compatibility

Do not use on water-sensitive floors, e.g. unsealed wood.

Environmental information

The surfactants used in this product are biodegradable in compliance with the requirement of EU Detergent Regulation, EC 648/2004.
