

Tuft Tris pockets system mop

Microfibre, cotton and polyester floor mop, woven with knotted tufting system, internal looped end and external cut end, polyester support with pockets

Technical information

code	notes	cm (comm. sizes)	cm (real sizes)	pcs	kg	m ³
00SP110CM		↙ 40 ↘ 14	↙ 45 ↘ 14	25	4,64	0,027
00SP120CM		↙ 50 ↘ 16	↙ 54,5 ↘ 14	25	6,18	0,036

SYSTEM

Flat mopping system with pockets, to be used either pre-soaked, soaked on demand with soaking station or with handles with tank
 Ideal for any surface and kind of dirt thanks to the combination of the 3 fibres: cotton for its absorption power, microfibre for its dirt collecting power and polyester for greasy dirt and low friction

GREEN BOX

DECITEX of the fibres
 Microfibre: 0,20 DTX

Efficient: microfibre requires less chemical to remove dirt and bacteria, reducing water and chemical consumption

Advantages

- **Efficient:** the tufting system bonds fibres to the support, granting a long life cycle to the mop
- **Increased resistance:** the double stitching at the points of greatest effort ensures a longer life to frequent use and washing
- **Maximum absorption:** the thick weave of the yarn ensures large floor coverage, saving water and detergent
- **Multipurpose** the combination of different fibres allows making many operations with one single mop
- **Highest hygiene:** microfibre penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria
- **High-performance:** the cleaning solution is evenly distributed on the floor, making cleaning easier
- **Easy:** mop changing is easy and quickly
- **Touch-free:** the detaching system avoids any contact with the dirt
- **Long durability:** pocket mops last twice as much as strap tape mops

Material

White yarn: microfibre (80% polyester, 20% polyamide) - Beige yarn: 70% cotton, 30% polyester - Grey yarn: 70% polyester, 30% cotton - Support: polyester

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the laundry detergent packaging
Perform a pre-wash in cold water without laundry detergent to remove any residual product used during cleaning operations
Recommended use of professional textile laundry detergent
Do not use fabric softener
Do not use laundry detergents with Ph > 11
The use of laundry nets is recommended to speed up and make laundry operations more hygienic

Specific mop instructions

Washing temperature max 95 ° C, recommended 60 °

Bleaching possible, do not use chlorine

Do not tumble dry or in a dryer
